Now that you've extracted the file, you're ready to install the update.

- 6. Confirm the modem is connected directly to the computer via Ethernet or USB. (Upgrade will not work with a wireless connection).
- 7. Close any open applications, including any FTP or TFTP servers.

8. Open the **GTUpgrade** file. (If you chose the default save location, you'll find the file in the c:/temp directory.)
